Dear Mr. Snow,

Please consider this letter a response to the revised CALFED plan. I oppose CALFED's plan to increase surface water storage in the Central Valley by raising existing dams or building new offstream storage reservoirs.

I urge CALFED to expand water efficiency conservation + reclamation programs to stretch our existing water supply, instead of building new dams + canals. This could be

done by switching to
higher value & less
water consumptive
crops + by installing
water meters for all
agricultural +
urban users.

I currently ~~do~~ am
spending the weekend
on the South Fork
American River + worry
about the future ~~of~~ for
rivers, such as the
one

We cannot solve the ecological
problems caused by
dams + diversions, by
building more dams
+ diversions.

Thank you for your time +
consideration,

Dawn Breitendosch 643 Sonoma St
San Francisco CA 94118
